carousel™

Carousel table and seating elements define perso

nal space in public settings, marry informality and order, function and flair.

Carousel varies its style to suit the setting.

Carousel is a smart solution for outdoor spaces and large atria. Its round table is conducive to conversation and its individual seats are comfortable to sit in, get into and out of. Carousel is strong and durable, easy to plan and assemble, a cinch to maintain in all kinds of weather. It can be configured to accommodate a wheelchair, holds an umbrella with no added structure, and its seats can't walk away so they don't have to be replaced. While Carousel's structure maintains order, its tabletop and seat options offer welcome visual variety. An array of Pangard II™ powdercoat colors and a choice of umbrella profiles create Carousel settings that are as sprightly as their namesake or as subdued as a business suit.

Our Purpose Is To Enrich Outdoor Spaces

We believe in the power of design and its ability to elevate experience and help create a sense of place in public environments. Our high quality products and outstanding customer service have earned us a reputation as one of the world's premier designers and manufacturers of outdoor commercial furnishings.

Carousel™ Specifications

Seats and Supports

Carousel tables are available with 3, 4, 5 or 6 seats. Three-seat is ADA compliant and five-seat styles are wheelchair accessible. Seats are available in backed or backless styles. Supports are formed of 2" steel tubing. Umbrella holder is a built in feature on all supports.

Outside dimensions across table to back of seats is approximately 82" for backless and 85" for backed seats

Tabletop

42" in diameter and 29" high. Steelhead and Catena tabletops are formed of heavy gauge steel reinforced with channels beneath.

Catena features a rolled edge; Steelhead is framed by a 1-1/2" diameter metal tube and may be specified with solid or perforated top.

Marneaux tabletops are made from a 100% acrylic resin solid surface material. Its been a designer-preferred material for countertops because it resists scratching, staining, chipping and cracking. Weather, harsh chemicals, and UV rays have virtually no effect on the "throughbody" color or structural integrity.

All tabletops are available with or without umbrella holes. Umbrella hole must be specified when ordered; cannot be retrofitted on site.
