UW-Madison 2020 Revenue Innovations Study Principles

https://www.vc.wisc.edu/initiatives/revenue-innovations/

- Generate substantial new streams of revenue to support the university’s mission.
- Recognize the university’s history, as a public land-grant institution, of placing value on the medium to long term versus the short-term.
- Align with the UW-Madison Strategic Framework (2020-2025) while supporting the university’s mission related to teaching, research, and service.
- Support the university’s agenda to enhance diversity, equity, inclusion, healthy communities, as well as our obligations to sovereign Native Nations in the state now known as Wisconsin.
- Factor in and respect principles of shared governance, which gives representation to academic staff, university staff, faculty, and students, all who take part in making significant decisions concerning the operation of the university.
- Enhance the student learning and growth experiences on and off campus.
- Protect the overall wages and benefits of employees associated with any campus unit or program linked to revenue innovation.
- Trial potentially scalable innovations in new technologies and technology transfer, performance and operations, campus design, transaction structuring and procurement, partnership structures, governance, and regulation.
- Improve the accessibility, livability, sustainability, and quality of the campus environment, and the city-region more generally.
- Support and build positive relations and ties with the community, the nonprofit sector, the business sector, and the public sector in the city-region, the state, the country, and the rest of the world.

2025-27 Capital Budget &
2025-31 Six-Year Capital Development Planning PRINCIPLES

1. Strategic alignment to optimize resources and meet campus goals
   • Project supports UW-Madison 2020-2025 Strategic Framework Plan priorities
   • Project supports the guiding principles of the 2020 UW-Madison Revenue Innovation Study
   • Project supports 2015 Campus Framework (Master) Plan
   • Project was previously requested, reviewed and ranked, but ultimately deferred
   • Project Advanced Plan is complete or in-progress confirming project scope, schedule and budget

2. Create adaptable, healthy, sustainable, resilient and safe facilities
   • Project renovates existing space to be more adaptable for future use or creates new adaptable facilities when necessary
   • Project meets UW-Madison renewable energy systems and infrastructure goals
   • Project meets UW-Madison sustainability goals
   • Project addresses ecological and environmental resiliency
   • Project supports campus equity, inclusion, and diversity principles

3. Maximize the use of campus facilities.
   • Project reuses, renovates and/or remodels an existing facility
   • Project removes underutilized and obsolete facilities
   • Project supports UW-Madison’s mission to align modern technology with research and pedagogy needs in adaptable facilities
   • Project supports space utilization efficiency
   • Project creates flexible, multi-user work environments

4. Reduce deferred maintenance & create easily maintainable facilities
   • Project designed to reduce overall maintenance program costs – capital investment is less than cost of annual maintenance
   • Project recapitalizes significant building systems
   • Project removes a facility with significant deferred maintenance
   • Project addresses issues as identified with a low Facility Condition Assessment
   • Project addresses existing safety or code issues
Lessons Learned for the Six-Year Process

ROLE & PROCESS:
- The process relies on CPC as the collective shared governance entity to advise the Chancellor.
- CPC members are asked to consider items before them through a ‘campus’ perspective.
• In 2021, CPC heard presentations from each campus unit about their capital priorities, asked questions, and influenced campus priorities through thoughtful debate.
- CPC approved FP&M recommendation list with modifications made through discussion and amendments at CPC meetings. List was sent to Executive Leadership Team for final approval.

CONSIDERATIONS FOR THE 2025-2031 PROCESS:
- FP&M wants to improve the process from SCD’s and Campus community perspectives understanding UW System requirements.
- There are a variety of ways to deliver projects – which are fluid throughout any biennium cycle. UW-Madison needs to be realistic about what can be achieved.
- SCD advocacy is important, but input must align with campus leadership priorities and UW System planning principles.
- Other important considerations include facility condition assessments, space utilization data, and programmatic alignment.
